

DNL – 6ème – CROSSWORD #1

ACROSS		DOWN	
3	4 sided shape whose sides are equal	1	Unity of measure of angles
5	Measure of three-dimensional space	2	Result of addition
9	Study of figures	3	4 sided shape whose angles are right
11	Measure of surface	4	4 sided shape whose sides are equal and angles are right
12	For the reason of	6	Result of division
14	Three sided shape	7	Result of subtraction
15	Name of a Greek mathematician who pronounced "Eureka!"	8	Symbols from 0, 1, 2 to 9
17	Study of likelihood	10	As a consequence
18	Name of mathematician who invented a famous impossible triangle	13	Line inside a polygon
19	3.14	15	Study of whole numbers
20	Whole number	16	Transformation with respect to an axis, like mirror
21	Closed shape whose distance to a given point is constant	19	Result of multiplication
22	Study of data	22	As a consequence
